CGPA - 7.34

EXPERIENCE

Intern

Jfork Technology Services Limited • Aug 2023

- During my internship, I acquired hands-on experience in data analysis, employing Python and Power BI to extract, clean, and analyze data sets.
- I applied statistical techniques to identify trends and patterns, created insightful visualizations, and contributed to data-driven decision-making.
- This experience enhanced my analytical skills and proficiency in data manipulation and presentation.

TRAINING AND COURSES

- Complete Web Development, Udemy
- May 2023
- Data Analysis with Python, Great Learning
- September 2023

PROJECTS

Electrical and water online billing system

- Developed Database Management System for billing system using PHP and MySQL.
- An online billing system is digital platform to generate, send and manage invoices electronically.

Digitization of procurement process

- Developed website using mern stack.
- It involves using technology to streamline and automate various stages, from sourcing suppliers to managing contracts and payments.
